## Project Design Phase-II Solution Requirements (Functional & Non-functional)

| Date          | 15 October 2022                      |
|---------------|--------------------------------------|
| Team ID       | PNT2022TMID33413                     |
| Project Name  | Personal Expense Tracker Application |
| Maximum Marks | 4 Marks                              |

## **Functional Requirements:**

Following are the functional requirements of the proposed solution.

| FR No. | Functional Requirement (Epic)       | Sub Requirement (Story / Sub-Task)                          |
|--------|-------------------------------------|---|
| FR-1   | User Registration                   | Registration through Application Registration through Gmail |
| FR-2   | User Confirmation                   | Confirmation via Email Confirmation via OTP                 |
| FR-3   | User monthly expense tentative data | Data to be registered in the app                            |
| FR-4   | User monthly income data            | Data to be registered in the app                            |
| FR-5   | Alert/ Notification                 | Alert through E-mail Alert through SMS                      |
| FR-6   | User Budget Plan                    | Planning and Tracking of user expense vs budget limit       |

## **Non-functional Requirements:**

Following are the non-functional requirements of the proposed solution.

| FR No. | Non-Functional Requirement | Description   |
|--------|----------------------------|---|
| NFR-1  | Usability                  | Effectiveness, efficiency and overall satisfaction of the user while interacting with our application.      |
| NFR-2  | Security                   | Authentication, authorization, encryption of the application.   |
| NFR-3  | Reliability                | Probability of failure-free operations in a specified environment for a specified time.                     |
| NFR-4  | Performance                | How the application is functioning and how responsive the application is to the end-users.                  |
| NFR-5  | Availability               | Without near 100% availability, application reliability and the user satisfaction will affect the solution. |
| NFR-6  | Scalability                | Capacity of the application to handle growth, especially in handling more users.                            |
